## Technologies

HTML

Tailwind

CSS

JavaScript

Git

TypeScript

ReactJS

Bootstrap

Angular

Shadcn

Redux

Vite

## Experience

### Forte Digital | Bachelor Collaboration

01/2024 – 06/2024

Served as the lead frontend developer, creating a simple and intuitive user interface for a flashcard application.

Led the team in researching effective study features for the app.

Designed the user interface, which helped accelerate the process of selecting which features to prioritize.

Evaluated the app's interface, ensuring that common issues were addressed to comply with web accessibility standards.

Implemented user testing that led to an analysis of the impact of AI on students' study sessions.

Atomic Design

React

Figma

User Testing

GPT

### Nander Engineering Group | Internship

01/2018 – 02/2018

Completed a one-month internship, gaining valuable experience in engineering concepts, project development, and effective team collaboration.

Kanban

Daily Stand-ups

AutoCAD

## Notable Projects

### Personal Project | Portfolios

06/2024 – 03/2025

Created two personal portfolios. One focused on inclusive design and accessible navigation, the other showcasing a more interactive and engaging user experience to highlight frontend capabilities.

### Web Application - ITPE3200 | Flashcard Applications

08/2023 – 12/2023

Developed a Minimum Viable Product web application to fulfill course requirements, gaining experience in MVC architecture and single-page applications with Angular.

## Certificates

Responsive Web Design

Legacy JavaScript Algorithm and Data Structure

Legacy JavaScript Algorithm and Data Structure (Beta)
